

Automated export documentation

A flexible, seamless solution that delivers big savings and greater efficiency

Our association with TradeWindow

Auckland-based TradeWindow provides digital solutions to drive connectivity, productivity and visibility, including paperless processes for trade partners across various industries. These include Prodoc, a trusted and proven export documentation solution for over 30 years.

Abel began working with TradeWindow in 2019 to develop an interface that delivers Prodoc's benefits to Abel's customers. Much of the data that Prodoc needs for a shipment already exists in Abel. You can send data across the interface multiple times while a shipment is being prepared, so you can begin work on the export documentation in Prodoc.

Prodoc is Abel's preferred provider for export documentation automation.

Introducing Prodoc by TradeWindow

Exporters can spend a lot of time manually preparing documents to comply with MPI, shipping and border requirements. Yet one mistake can be costly – triggering customs penalties, critical delays and business losses.

Prodoc eliminates the risks of manual data entry by automating the export documentation process on one easy-to-use, flexible platform. Seamlessly integrating data from Abel into globally recognised export document templates, Prodoc helps you produce exactly the right set of documents for every shipment in a matter of seconds, not hours or days. Prodoc can then electronically transmit this documentation to your trade partners.

By streamlining a critical business process, Prodoc provides significant benefits: accurate data, faster delivery, increased visibility and sustainability, automated communications and substantial cost savings. Thanks to efficiency gains of up to 60%, you can free up your staff for other valuable work.

Flexible, agile solution

Seamless integration

Kiwi owned & supported

Key Metrics

Over **170** countries reached by Prodoc's digital documents

1 million export documents created every year

Up to **60%** improvement in efficiency

*metrics provided by TradeWindow March 2023

Benefits

> 01 Flexible, agile solution

Prodoc is a highly flexible tool that creates, manages and validates all your export document requirements. You simply assign default forms based on a wide range of criteria and set the exact requirements for each customer and market. Prodoc does the rest.

> 02 Seamless integration

Prodoc uses EDI / API connections to exchange data seamlessly and securely with your export supply chain, including customs, border agencies, ports, shipping lines, freight-forwarders and banks. Common documents generated using Prodoc include commercial invoices, export health certificates, certificates of origin and bills of lading.

> 03 Kiwi owned and supported

As a business built with Kiwi ingenuity that's growing globally, TradeWindow knows the challenges exporters face to stay competitive. With an in-country team of developers, subject matter experts and customer support, TradeWindow works hard to ensure Prodoc meets your business needs and adapts quickly to any issue or industry change.
